

Project	Description
1. Website Update	Assist with update of our new Genesee RiverWatch website
2. WWTP Data Analysis	Review and analyze our data on WWTPs in basin. Create a spreadsheet summarizing those results in a user friendly manner.
3. Small Scale SBS	Investigate how others do small scale streambank stabilization projects
4. Trees-For-Tribs	Investigate opportunities for Trees-for-Tribs projects in the basin
5. SBS Workshop	Investigate technologies. Find out who are the recognized experts in this field. Plan workshop.
6. Septic Systems	Investigate alternatives to conventional septic systems. Develop retrofit technology that can be installed for less than \$1,000.
7. Tile Drain BMPs	Investigate tile drain BMPs that reduce nutrient loss & save water. Develop demonstration project proposal.
8. River Monitoring Data	Develop various ways to convey/share the results of our river monitoring program.
9. Citizen Monitoring Program Training	Research formats and write training procedures and manual
10. Genesee RiverWatch River Monitoring	Collect and analyze water samples with our monitoring equipment
11. River Access	Investigate the types of car-top boat river access designs and costs.
12. Canoe, Kayak and Fishing Access Map	Update a map developed by the Sierra Club of canoe and kayak access point in the Genesee River Basin. Consider adding fishing access too.
13. Newsletter	Prepare materials for monthly or quarterly newsletter to be printed and sent out via Constant Contact
14. Social Media	Assist with maintaining CEI's LinkedIn and Facebook sites
15. Volunteer Coordination	Track progress of existing volunteers and solicit new ones.
